

# WHY CONDUCT CLINICAL VENDOR AUDITS?

Clinical vendor audits assess the performance of the multi-faceted service delivery of your trial partners. Ensuring compliance and oversight will provide a measure of confidence for you as a sponsor within the regulatory environment. IMARC can meet your auditing needs across all types of vendors, including full-service contract research organizations, core laboratories, and data management vendors.

## Vendor Audits Provide >

Review of the Vendor's Quality Management System

Assessment of Compliance to a Regulatory Standard

Systematic Oversight for All Vendor Tasks

Measurement of Contract Adherence
